

Section One: Environmental Policy Statement

JFE Attridge Scaffolding Services Co. Ltd, who carry out the supply, erection and dismantling of scaffolding on various sites throughout the country recognise its responsibilities for environmental matters, place particularly high priority on environmental affairs, with regard to the Company operations and the services offered to customers.

- The Company objective is to have a policy of effecting continual improvement and change in accordance with developing knowledge and changing environmental requirements.
- All staff are aware of the environmental sensitivity of the business sector, in which the Company operates and seek to continually develop the Company's environmental compliance.
- All the Company's operations must be carried out with due regard to the appropriate and relevant legal requirements; we are committed to the prevention of pollution.
- The Company will only use disposal facilities where the level of operations control and environmental compliance is deemed to be of a suitable level and represents responsible management.
- The Company will ensure that vehicles and equipment used are well maintained, clean and are always operated within the legal limits, taking advantage, wherever possible, of engineering modifications to reduce and emissions and to save unnecessary consumption of energy.
- The Company will take whatever measures may be necessary to ensure that the collection, transport and disposal facilities, which it utilises, are not and do not become hazardous to public health or the environment.
- The Company co-operates with, and assists to the best of its ability, officers of the Environment Agencies in the exercise of their duties.
- The Company requires its staff to advise senior management of any concerns they have regarding poor practice by Waste Disposal Contractors, or about any acts, which might be detrimental to the environment or to the interests of the industry.

All operations will be compliant with the relevant legislation and will be monitored for any updates on an annual basis.
